- Percentage : **92%**
- Percentage : **93.1%**

## PERSONAL PROJECTS

### MUSIC PLAYER APP (10/2021 - 12/2021)

- I created a basic media player that allows you to go forward, backward, play and pause a song with simple UI. It's an mini project in **android studio** to read data from external storage and use that data to perform operations.
- **Language used : Java**
- <https://github.com/gauravmittal54/Music-player/tree/main/My-First-Media-Player-App-master>

### HOTEL MANAGEMENT SYSTEM (03/2021 - 04/2021)

- This is a Hotel Management System which is built in Java programming language with the help of **NetBeans IDE**. Also to make records available for future use it's back-end is **SQLite** database.
- **Language used : Java**
- <https://github.com/gauravmittal54/Hotel-Management-System>

### FACE RECOGNITION USING OPENCV (05/2020 - 07/2020)

- The objective of the project is to detect object of interest(Face) in real time and to keep tracking of the same object using **open cv**.
- **Language used : Python**
- <https://github.com/gauravmittal54/Face-recognition->
